A Clean Man

Outside cleanliness is less than half the battle. A man may scrub himself a dozen times a day, and still be unclean. Good health means cleanliness not only outside, but inside. It means a clean stomach, clean bowels, clean blood, a clean liver, and new, clean, healthy tissues. The man who is clean in this way will look it and act it. He will work with energy and think clean, clear, healthy thoughts.

He will never be troubled with liver, lung, stomach or blood disorders. Dyspepsia and indigestion originate in unclean stomachs. Blood diseases are found where there is unclean blood. Consumption and bronchitis mean unclean lungs.

Dr. Pierce's Golden Medical Discovery

prevents these diseases. It makes a man's insides clean and healthy. It cleans the digestive organs, makes pure, clean blood, and clean, healthy flesh.

It restores tone to the nervous system, and cures nervous exhaustion and prostration. It contains no alcohol or habit-forming drugs. Constipation is the most unclean uncleanliness. Dr. Pierce's Pleasant Pellets cure it. They never gripe. Easy to take as candy.

The crew were slightly shaken up with the exception of Bradley McGuire who is believed to be seriously injured. McGuire was caught under the debris and badly cut and mashed. On account of your scribe being in Cincinnati last week, Livingston was not represented in the columns of the Signal.

W. P. Burnett, of Somerset, was here Tuesday. How we love to meet those "old Level Green boys" Mr. and Mrs. Walter Mullins have returned home after a pleasant trip to Lexington.—Mrs. App Taylor is visiting relatives in Mt. Vernon and Brodhead.—There is a series of meetings going on at the Baptist church.—John Clark who has been very sick is some better.—Well, spring surely must be here the frog has begun to croak forth his hoarse notes, the wood bird, the

monarch of the air, this morning took his place on a distant oak and called forth the long roll and even the snake, that hateful reptile, has again made its appearance. So Mr. Farmer get ready to harness old Dock and plant the taters and set out the ingerns, and in a few days you can see Aunt Jermina Jane going over the fields to pick salet and then we think how lovely are the works, of nature.

That precious document, the petition to annul the charter of the corporation of the town of Livingston, made its appearance Sunday, and they started it upon its mission and from what we can learn they had forty-two signers Sunday night. Well it might do in the benighted regions of darkest Africa to try to get along without some sort of government, but when it comes to an enlightened people trying to live in a town, especially like Livingston, without city government, we think they will meet their Waterloo. Some think to do away with the city government that they get out of paying the dollar tax and will not have to work the roads. Promises are cheap and anyone can make them. You know that the devil told mother Eve that if she would eat the forbidden fruit that her eyes would be opened and she would be as other gods, now you that sign this, see if the framers of this document will save you from working the six days. It is a shame for some of us to let prejudice lead us so far. If we get defeated in an election let us abide by the decision of the majority and not try to work an injury on all the town just to satisfy our own personal feelings. Livingston will be in a nice fix without protection. The time has been when it was dangerous for people to travel the streets and if it gets much worse than it was a few years ago, then God deliver us. We have never had the privilege to see the petition for some means or other. It seems to be a private instead of a public affair. We hope that right will prevail and we think there are enough people in town to give this paper of petition a decent burial and when we think of our dear old home town without protection that passage of scripture comes to our mind where it says, "Jesus wept."

Later.—We were informed this evening (Thursday), that the petition to annul the corporation had been sent to Mt. Vernon Tuesday night. We can say one thing, we did all for the corporation we could and are still a thorn in the flesh, for to take our protection away from us we will soon be in a fix, but we will live in hope if we die in despair. The time has been when you could not walk the street with a light at night for you was ordered to blow it out or have it shot out. We know it has to go through a suit, and we don't think there can be found a jury of sane men who will decide against peace and order. We will wait results.

HELM'S STRONG SPEECH.

VIGOROUSLY OPPOSES PENDING BILL ON OCEAN MAIL SUBSIDY

OUR DIPLOMACY FAULTY.

KENTUCKIAN DECLARES SHIP SUBSIDIES WILL NOT BRING DESIRED RESULTS.

(BY ASSOCIATED PRESS)

Washington, D. C., Feb. 24.—Vigorously opposing mail steamship subsidies, Representative Helm of Kentucky in a speech in the House today, declared that the United States government was being converted into a gigantic pawnbroker's shop for the purpose of extending trade. He insisted that subsidies had not built up the maritime interests of the United States.

"I do not subscribe to that course or policy that would convert this government into a gigantic pawnbroker's shop in order to acquire trade," declared Mr. Helm. "I do think we are materially improving our trade relations with Central and South America by attempting to put men selected at Washington in control of the governments of certain of these countries. In my opinion it will require something more than subsidy to overcome the adverse feeling engendered by our present policy in that zone of the Western Hemisphere which should be our best market."

"I am apprehensive that the good effects of former Secretary Root's visit to the Central and South American republics, looking to closer and more cordial relationship with these governments has been largely discounted by our more recent domineering policy there. I fear some blunders and mistakes have been made. That quarter of the globe is on the eve of great development from which we are in position to reap some of the benefits, and I surely believe that the Root policy will yield us better returns than the coercive policy."

Tariff laws, Mr. Helm declared, had made the United States a dear market.

"It is unreasonable," he added, for us to expect the foreigner to purchase in a protected market, where the seller insists on his profits that arise by operation of law, as it is to expect the individual to do his shopping at the highest priced store in any locality.

"The report of the Commissioner of Navigation shows that we have three subsidized lines on the Caribbean route, and the full complete and final answer to all arguments in support of subsidy as a trade producer, is that notwithstanding these subsidized lines, our trade in that sphere has decreased instead of increased."

Mr. Helm concluded his remarks by declaring his opposition to subsidy of any kind.

The applause that greeted Mr. Helm when he first arose evidenced the high esteem in which he is already held among the older members. The interest and applause accorded him throughout was evidence of the worth of his speech, which was about an hour in length. Mr. Helm has seldom talked, except to answer roll calls (he claims to have answered more than any other member who has been there less than three years) but when he does talk he evidently studies and prepares what he has to say. This was even more evident in his speech of last Thursday than it was in his speech on the tariff at the extra session. His position on the Insular Affairs Committee has given him an opportunity to study the mail subsidy grab in all of its phases, and he has improved said opportunities.

Mr. Helm arrived home Saturday to attend the meeting of the district Congressional committee at Nicholasville on Thursday. He says he has confidence in the wisdom of the committee and is only asking them to give him a primary in which all of the democratic voters can have a say, and which will be fair to as many or as few as want to run against him for the nomination.—Stanford Interior Journal.

ANNOUNCEMENTS.

We are authorized to announce HON. HARVEY HELM as a candidate to succeed himself as Representative from the Eighth Congressional District subject to the action of the Democratic party.

LET US HAVE GOOD ROADS.

The outlook is that the General Assembly will make final disposition this week of the good roads measures introduced by Senator Bosworth and passed, as a result of his efforts, in the upper house. The columns of a newspaper will not contain all of the arguments that may be made for good roads, and against the unthrif of neglecting road building. There has been within recent years an awakening in America to the importance of constructing good highways. Now is the time for Kentucky to catch step with other States in this matter. The Bosworth-Wyatt amendment to the Ky. Constitution was thoughtfully adopted, and its adoption was virtually an injunction to the General Assembly to enact such laws as it might deem adequate to the inauguration of a good roads policy along the lines of reasonable economy. If there are in the plans proposed by the pending legislation any error that should be corrected it is in order to discuss, and correct them. The author of the bills has invited such discussion. To fail to enact good roads legislation would be to defer for two years business that must be entered upon sooner or later, and the members of the General Assembly would be left under the charge of having flagrantly disregarded the will of the people as expressed in the adoption of the Constitution amendment.

Well informed students of social progress may differ as to plans of securing good roads. But op-

position to expenditures for highway improvement, if such expenditures are provided for under sound and carefully considered laws, can proceed only from ignorance. Everyone whose range of vision extends beyond the boundaries of his own county knows that an important factor in the foundation of a country's civilization is road building. Everyone who has given intelligent attention to farming problems and freight rates knows that bad roads are the worst sort of extravagance to a farming community, and that good roads are the best form of thrift. It is hardly necessary to say that, unlike many kinds of extravagance that which is expressed in bad roads gives no temporary satisfaction. The economy represented by good roads adds to the pleasure of living, and tends more than anything else to eliminate the element of isolation that is traditionally associated with country life.

The existence or non-existence of roads determines the question of whether a country is occupied by a civilized people or by savages. Similarly the degree of the enlightenment of a country or section of a country might be ascertained by passing over it in a balloon and studying with glasses the extent and character of its system of roads. To its road builders no less than to its warriors, were due the growth and greatness of the Roman Empire. Not the least of the surviving monuments that attest the genius of the Romans, is the Appian Way, which was begun by Caesar Appian Claudius more than 2,000 years ago.

It is the boast of Great Britain that her roads prove the quality of her civilization, and that the highways she has constructed in her African and Asian possessions prove the beneficence of her rule. France, which is famous for the thrift of its working classes, probably leads the world to-day in the completeness of her system of roads and their quality. With an area only about five times as great as that of Kentucky, France has spent \$600,000,000 in the construction of public roads, and spent annually three per cent of the cost of construction—\$18,000,000—keeping them in repair.

If the State of Kentucky has spent \$120,000,000 to girdiron her 40,400 miles of territory with good roads, and were spending \$3,600,000 a year to maintain them, the expenditure would be proportionate to that which France has found profitable in an area five times as large. It is, of course, to be considered that France has a population between fifteen and twenty times as large as that of Kentucky, and that the per capita circulation of money in France is the highest in the world. But upon the other hand it is demonstrable that good

roads produce, as well as reflect, prosperity in France.

It is conceded that in the United States more money is wasted in maintaining shiftless badroads than would have to be expended to maintain double the mileage of economical good roads. If we had properly constructed highways there would result not only a great saving in cheaper transportation, but also in road maintenance. Taken as a whole the United States has worse public roads than any highly civilized country. This is due, of course, to the comparative youth of American civilization, and the earnest attention that is being given to the economical improvement of roads will result in the evil being remedied. In the forward movement Kentucky should not be left behind.

Under the legislation proposed a greater burden of taxation would fall upon the most densely populated sections of Kentucky and upon rich corporations. This is fair, and, because of their greater appreciation of the benefits arising from road improvement, the inhabitants of cities and officers of railroads are the readiest supporters of a good roads policy. It is said that some of the representatives from the richer Bluegrass counties, which are already provided with fairly good roads, are opposed to the Bosworth measure. The State cannot be expected to deny itself development because of the selfishness of a portion of the population of a favored section to whom Providence has given limestone that provides nourishment for their pastures, material for their roadbeds and spring water for their distilleries. They should be willing to join in a movement to benefit the whole State. If they are not they should not be allowed to block it.

The average cost of transportation on the improved European roads is eight cents per ton per mile. On American roads it is twenty-five cents. In a great part of Kentucky the roads are below the American average and the freight cost above the average. There are numerous other reasons why existing conditions should be changed, but this alone should be sufficient.—Courier Journal.

The Rockefeller Foundation is incorporated by a bill introduced in the United States Senate Wednesday. It is understood that the purpose is to provide a method for John D. Rockefeller to dispose of his wealth in a manner beneficial to mankind.

The Secretary of state has signed a proclamation giving to Austria-Hungary the minimum rates of the United States under the Payne-Aldrich tariff act. The proclamation is now before the President for signature.

TERRIBLE PLIGHT.

(Chicago Post)

"What is the most unfortunate situation you can imagine a man's being in?" asked the man who is always propounding useless questions.

"I should say," replies the man who can't be stumped, "that the worst plight would be to be up in an airship, with lunch just served and then to drop your false teeth overboard."

THE FAITH OF LINCOLN.

"This is my faith," said Abraham Lincoln:

"I have never united myself to any church, because I have found difficulty in giving my assent, without mental reservation, to the long complicated statements of Christian doctrine which characterize their articles of belief and confessions of faith. Whenever any church will inscribe over its altar, as its sole qualification for membership, the Savior's condensed statement of the substance of both law and gospel, 'Thou shalt love the Lord thy God with all thy heart and with all thy soul and with all thy mind, and thy neighbor as thyself,' that church will I join with all my heart and all my soul."

And the simple faith of Abraham Lincoln is that of thousands of other good men and women in the world today. The faith of most persons is strengthened by union with a church. That is the outward sign of their religion, but the true sign is within themselves.

The Kentucky Federation of Women's Clubs, which has and is doing such intelligent and effective work for various interests of the Commonwealth, has cause for gratulation that the Forestry bill passed the Senate on the 24th ult., and that it has excellent prospects also of passing the House. The conservation of the timbered interests of Kentucky should be a subject of deep concern, and the members of the Kentucky Federation of Women's Clubs deserve and should receive the hearty support and co-operation of every thinking and intelligent citizen of the State—not only in securing the passage of this bill—but of other needed legislation which they advocate.

GOOCHLAND.

Mr. and Mrs. W. A. Phillips and little son, Lloyd visited relatives at Egloo Sunday.—Jim Hammonds and Volney Abrams, of Double Lick were in Goochland Monday.—Luther Phillips who has been very sick with pneumonia is able to be out again.—Rev. J. W. Solomon is very low, not expected to live but a short time.

James Lunsford, of Egloo, was in Goochland Friday on business.—Mr. and Mrs. J. C. Phillips were the guests of J. F. Dooley and family Sunday.—Mrs. Telitha Hampton was the welcome guest of her son, Lawrence and family near Johnetta, Sunday.—The Mountain Lily Rebekah Lodge gave a cake supper Thursday night. There were several members present and all report a nice time.—Homer Phillips and J. I. Dooley were in Berea last week.

Senator Jeff Davis, of Arkansas was denied the privilege of striking from the record a statement in his testimony before the House Committee on Public Lands, in advocacy of the Arkansas "sunk lands" bill, that he would receive a large legal fee if the bill were passed.

The United States Senate Wednesday passed the bill authorizing \$30,000,000 worth of certificates of indebtedness to complete existing irrigation projects.

The Kentucky House of Representatives defeated the bill making appropriations for the Kentucky State University and normal school.

A special general convention of the Mine Workers of North America, to be held at Cincinnati, March 14, was called Sunday. The convention will act upon the conclusions of the joint conference of the central competitive field, to be held also at Cincinnati on March 8.

The Court of Commerce feature of the administration railroad bill was adopted Sunday by the House Committee on Interstate and Foreign Commerce. This, it is believed, paves the way for a complete agreement of the administration bill.

Office with Dr. Webb,

Feb. 25-1m. Livingston Ky.

Richmond, Ky., Mch. 2.—In an
interview this afternoon the Hon.
J. A. Sullivan made the statement
that he would not be a candidate
for Congress from this (the Eighth)
district before the Democratic
Committee, which meets at Nichols-
ville in the next few days.

Mr. Dave Thompson, died last
Friday morning at his home in
Garrard county after an illness
of about one month of a complica-
tion of diseases. Mr. Thompson
was a brother of our townsman, F.
L. Thompson and was one of Garrard
county's wealthiest and most
prominent citizens. He leaves two
sons, R. E. and Booth Thompson.

DURHAM RALLY:—"Durham
Rally Week," held the past week
by all Odd Fellow Lodges in the
State in honor of Judge Milton J.
Durham of Lexington, the oldest
living Past Grand Sire of the
Order in the world, has been a pro-
nounced success according to the
reports received by Grand Master
T. N. Williams. The rally has
been held for the purpose of in-
creasing the membership of the
various lodges in the state and it
is estimated by Mr. Williams that
it will add over one thousand
members to the order in Kentucky
Up to Saturday Mr Williams has
received returns from sixty out of
the 260 lodges in the State, which
showed an increase of more than
350. Mr. Williams will go to
Bowling Green Tuesday to attend
a reception which will be given by
the lodge at that place in honor
of Judge Durham.—Lexington

Addison Maret, born near Paint
Lick, Garrard county, the year
1825, died in Webb City, Mo. on
Jan. 22, 1910 from the infirmities
of old age. He was the youngest
son of "Jacky" Maret, well known
throughout central and south east-
ern Kentucky sixty years ago. He
was married to Miss Mary Miller,
in 1857, a sister of George W. Mil-
ler, who became widely known
throughout the country as the
owner of the famous "ranch 101",
in Oklahoma. Moved with his
family to Newtonia, Mo., in 1877
where several of the members of
the family entered commercial
pursuits and farming. Seven
children all married, and the widow
(who is 74), a number of grand
children and several great-grand-
children survive. Oftimes in his
later years his thoughts turned
fondly to the associations of the
old "Kentucky home" and would
have been glad to visit the scenes
of his childhood but refrained from
paying a visit when thinking of
how all the old homesteads were
occupied by strangers, all, or most
of relatives had either passed over
to the great beyond or had migrated
to other localities. But few, not
half a dozen, by the name, of
Maret, from many large families,
was left in the old state. The
sadness of a proposed visit to the
old stepping grounds of his boy-
hood was abandoned and the re-
mainder of his days were spent
with his family in his western home
where the final summons found
him ready and he passed into the
final sleep without a murmur or
pain.

Elmer Mullins, a son of Mr. J. P.
Mullins, died yesterday at the home
of his father near Level Green, of
consumption.

We trust everyone will read the
"Good Road" article copied from
Courier-Journal, which appears on
second page. It is worth your
time and study.

We are in receipt of a copy of
the New York Herald containing a
write-up of the "traffic squad"
which consists of about 600
mounted police and an equal num-
ber on foot, and upon these men
depend much in handling the
traffic in the large business districts.
Our own Will Jones, a son of the
late J. M. Jones, who belongs to
this squad, of mounted police, was
the favored one to pose for the
picture to be used by the Herald in
its write-up of the splendid police
force of the Nation's metropolis.

Mr. W. T. Shaffer, aged about
60 years, died at his home Wednes-
day of pneumonia, after an illness
of only a few days. Mr. Shaffer
who came to this county from Gall-
atin, was one of the county's best
citizens and most successful farm-
ers. He might be termed the pio-
neer in tobacco raising, being the
first successful raiser in the county
and through his efforts have other
farmers become interested in the
cultivation of the valuable weed.
The burial took place yesterday at
Maretburg burying ground. He
leaves a large family.

John A. Mullins, aged 52, died
Tuesday afternoon at the St.
Nicholas hotel Louisville, of apoplexy.
Mr. Mullins had been in
Louisville for several weeks with
his brother, W. C. Mullins, who
is proprietor of the St. Nicholas,
and had apparently been enjoying
the best of health. On last Mon-
day morning he had a stroke of
apoplexy and gradually grew
worse until the end came the fol-
lowing afternoon.

RESOLUTIONS

(Adopted by Women's Club)

Whereas, The question of wheth-
er or not the cows and other live
stock shall be allowed to run at
large upon our streets is now being
agitated, and

Whereas, the Town Board has
very considerably deferred action
upon the question until the March
meeting, in order that they may
learn the desire of the citizens with
reference to the question, and

Whereas, We, the members of
the Women's Club, of Mt. Vernon,
are deeply interested in all that
concerns the welfare and beauty of
our town, and have long felt that
having the cows and other live
stock at large upon our streets
creates conditions undesirable and
unsanitary, because they mar the
beauty of our town, are a serious
menace to the gardens and lawns,
and endanger the health of the
community, therefore,

Be it Resolved, That we do most
earnestly request and urge upon
each and every member of the
Board that they vote against any
resolution or ordinance permitting
the same, and we urge the town
authorities to rigidly and effectually
enforce the law, promising them
our hearty co-operation and sup-

Better Not Get Dyspepsia

If you can help it. Kodol prevents Dyspepsia, by effectually helping Nature to Relieve Indigestion. But don't trifle with Indigestion.

A great many people who have trifled with indigestion, have been sorry for it—when nervous or chronic dyspepsia resulted, and they have not been able to cure it. Use Kodol and prevent having Dyspepsia.

Everyone is subject to indigestion. Stomach derangement follows stomach abuse, just as naturally and just as surely as a sound and healthy stomach results upon the taking of Kodol.

When you experience sourness of stomach, belching of gas and nausea, bloated sensation, gnawing pain in the pit of the stomach, heart burn (so-called), diarrhoea, headaches, dullness or chronic tired feeling—you need Kodol. And then the quicker you take Kodol—the better. Eat what you want, let Kodol digest it.

Ordinary peptic "dyspepsia tablets," physics, etc., are not likely to be of much benefit to you, in digestive ailments. Peptic is only a partial digester—and physics are not digesters at all.

Kodol is a perfect digester. If you could see Kodol digesting every particle of food, of all kinds, in the glass test-tubes in our laboratories, you would know this just as well as we do.

Nature and Kodol will always cure a sick stomach—but in order to be cured, the stomach must rest. That is what Kodol does—rests the stomach, while the stomach gets well. Just as simple as A, B, C.

Our Guarantee

Go to your druggist today and get a dollar bottle. Then after you have used the entire contents of the bottle if you can honestly say, that it has not done you any good, return the bottle to the druggist and he will refund your money without question or delay. We will then pay the druggist for the bottle. Don't hesitate, all druggists know that our guarantee is good. This offer applies to the large bottle only and to but one in a family. The large bottle contains 24 times as much as the fifty cent bottle.

Kodol is prepared at the laboratories of E. C. DeWitt & Co., Chicago.

FARMERS AT THE FRONT.

The farmers in the big county of Graves have determined that they must have better roads. The Fiscal Court has been unable to see how the work could be done, owing to the country's financial condition. Last week a large delegation of farmers appeared before the court and submitted a plan for beginning in July the betterment of the principal roads. The court has adopted the plan and by next fall Graves county will have made a good start toward a system of improved highways.

Briefly, the programme submitted by the farmers is as follows: The road hands, allowed by law, to take one of the county graders and grade the roads in the several magisterial districts; the county to use the money that has been expended heretofore in grading and expend it in graveling the principal thoroughfares leading from the county seat to the county lines, the roads to be improved in the order of their importance; the farmers agree to haul the gravel at \$1.50 a day, nine hours to constitute a day each farmer to supply a wagon with the capacity to haul a cubic yard of gravel at a load and to furnish team and driver, the county bearing the expense of digging and loading the gravel; the farmers also agree to donate to the county any branch or creek gravel on their farms to be used for grading roads that pass by or through such farms.

On a plan similar to this it is possible for any country in the State to make a substantial beginning for a system of good roads. I have worked to good effect in some of the Western Kentucky counties; it being possible thereby to make valuable improvements at a minimum cost. No county is in such impoverished financial condition as to render it impossible to start a modest scheme of betterment, and one good road calls for another.

Reports from May held say that the meeting of the farmers with the Fiscal Court showed "the best and most enthusiastic interest on the part of the people for good roads ever demonstrated in Mayfield." With such a spirit on the part of the farmers, who, of all men should be most interested in the subject, there is reason to believe that Graves county will not long continue under the thralldom of bad roads.—Courier Journal.

DON'T BREAK DOWN.

Tickling in the Throat

"Just a little tickling in the throat!" Is that what troubles you? But it hangs on! Can't get rid of it! Home remedies don't take hold. You need something stronger—a regular medicine, a doctor's medicine. Ayer's Cherry Pectoral contains healing, quieting, and soothing properties of the highest order. Ask your doctor about this. No alcohol in this cough medicine. J. C. Ayer Co., Lowell, Mass.

Constipation positively prevents good health. Then why allow it to continue? An active liver is a great preventive of disease. Ayer's Pills are liver pills. What does your doctor say?

In Bad Fix

"I had a mishap at the age of 41, which left me in bad fix," writes Mrs. Georgia Usher, of Conyers, Ga.

"I was unconscious for three days, and after that I would have fainting spells, dizziness, nervousness, sick headache, heart palpitation and many strange feelings.

"I suffered greatly with ailments due to the change of life and had 3 doctors, but they did no good, so I concluded to try Cardui.

"Since taking Cardui, I am so much better and can do all my housework."

Take **CARDUI**

The Woman's Tonic

Do not allow yourself to get into a bad fix. You might get in so bad you would find it hard to get out.

Better take Cardui while there is time, while you are still in moderately good health, just to conserve your strength and keep you in tip top condition.

In this way your troubles, whatever they are, will gradually grow smaller instead of larger—you will be on the up-grade instead of the down—and by and bye you will arrive at the north pole of perfect health.

Better Not Get Dyspepsia

If you can help it. Kodol prevents Dyspepsia, by effectually helping Nature to Relieve Indigestion. But don't trifle with Indigestion.

A great many people who have trifled with indigestion, have been sorry for it—when nervous or chronic dyspepsia resulted, and they have not been able to cure it. Use Kodol and prevent having Dyspepsia. Everyone is subject to indigestion. Stomach derangement follows stomach abuse, just as naturally and just as surely as a sound and healthy stomach results upon the taking of Kodol. When you experience sourness of stomach, belching of gas and nausea, pain in the pit of the stomach, heart burn (so-called), diarrhoea, headache, dizziness or chronic tired feeling—you need Kodol. And then the quicker you take Kodol—the better. Eat what you want, let Kodol digest it. Ordinary peptic "dyspepsia tablets," physics, etc., are not likely to be of much benefit to you, in digestive ailments. Pepsin is only a partial digester—and physics are not digesters at all. Kodol is a perfect digester. If you could see Kodol digesting every particle of food, of all kinds, in the glass test-tubes in our laboratories, you would know this just as well as we do. Nature and Kodol will always cure a sick stomach—but in order to be cured, the stomach must rest. That is what Kodol does—rests the stomach, while the stomach gets well. Just as simple as A, B, C.

Our Guarantee
Go to your druggist today and get a dollar bottle. Then after you have used the entire contents of the bottle if you can honestly say that it has not done you any good, return the bottle to the druggist and he will refund your money without question or delay. We will then pay the druggist for the bottle. Don't hesitate, all druggists know that our guarantee is good. This offer applies to the large bottle only and to but one in a family. The large bottle contains 34 times as much as the fifty-cent bottle. Kodol is prepared at the laboratories of E. C. DeWitt & Co., Chicago.

FARMERS AT THE FRONT.

The farmers in the big country of Graves have determined that they must have better roads. The Fiscal Court has been unable to see how the work could be done, owing to the country's financial condition. Last week a large delegation of farmers appeared before the court and submitted a plan for beginning in July the betterment of the principal roads. The court has adopted the plan and by next fall Graves county will have made a good start toward a system of improved highways.

Briefly, the programme submitted by the farmers is as follows: The road hands, allowed by law, to take one of the county graders and grade the roads in the several magisterial districts; the county to use the money that has been expended heretofore in grading and expend it in graveling the principal thoroughfares leading from the county seat to the county lines, the roads to be improved in the order of their importance; the farmers agree to haul the gravel at \$1 a day, nine hours to constitute a day each farmer to supply a wagon with the capacity to haul a cubic yard of gravel at a load and to furnish team and driver, the county bearing the expense of digging and loading the gravel; the farmers also agree to donate to the county any branch or creek gravel on their farms to be used for grading roads that pass by or through such farms.

On a plan similar to this it is possible for any country in the State to make a substantial beginning for a system of good roads. I have worked to good effect in some of the Western Kentucky counties; it being possible thereby to make valuable improvements at a minimum cost. No county is in such impoverished financial condition as to render it impossible to start a modest scheme of betterment, and one good road calls for another.

Reports from May held say that the meeting of the farmers with the Fiscal Court showed "the best and most enthusiastic interest on the part of the people for good roads ever demonstrated in Mayfield." With such a spirit on the part of the farmers, who of all men should be most interested in the subject, there is reason to believe that Graves county will not long continue under the thralldom of bad roads.—Courier Journal.

DON'T BREAK DOWN.

Severe strains on the vital organs like strains on machinery, cause break-downs. You can't over-tax stomach, liver, kidney, bowels or nerves without serious danger to yourself. If you are weak or run-down, or under strain of any kind, take Electric Bitters the matchless tonic medicine. Mrs. J. E. Van Sande, of Kirkland, Ill., writes: "That I did not break down, while enduring a most severe strain, for three months, is due wholly to 'Electric Bitters.' Use them and enjoy health and strength. Satisfaction positively guaranteed 50c at Chas. C. Davis."

How's Business?

THIS ad. is directed at the man who has all the business in his line in this community.

Q Mr. Merchant—You say you've got it all. You're selling them all they'll buy, anyhow. But at the same time you would like more business. Q Make this community buy more.

Q Advertise strongly, consistently, judiciously. Q Suppose you can buy a lot of washtubs cheap; advertise a big washtub sale in this paper. Put in an inviting picture of a washtub where people can see it the minute they look at your ad. Talk strong on washtubs. And you'll find every woman in this vicinity who has been getting along with a rickety washtub for years and years will buy a new one from you. Q That's creative business power.

Tickling in the Throat

"Just a little tickling in the throat!" Is that what troubles you? But it hangs on! Can't get rid of it! Home remedies don't take hold. You need something stronger—a regular medicine, a doctor's medicine. Ayer's Cherry Pectoral contains healing, quieting, and soothing properties of the highest order. Ask your doctor about this. No alcohol in this cough medicine. J. C. Ayer & Co., Lowell, Mass.

Constipation positively prevents good health. Then why allow it to continue? An active liver is a great preventive of disease. Ayer's Pills are liver pills. What does your doctor say?

In Bad Fix

"I had a mishap at the age of 41, which left me in bad fix," writes Mrs. Georgia Usher, of Conyers, Ga.

"I was unconscious for three days, and after that I would have fainting spells, dizziness, nervousness, sick headache, heart palpitation and many strange feelings.

"I suffered greatly with ailments due to the change of life and had 3 doctors, but they did no good, so I concluded to try Cardui.

"Since taking Cardui, I am so much better and can do all my housework."

Take CARDUI

The Woman's Tonic

Do not allow yourself to get into a bad fix. You might get in so bad you would find it hard to get out.

Better take Cardui while there is time, while you are still in moderately good health, just to conserve your strength and keep you in tip top condition.

In this way your troubles, whatever they are, will gradually grow smaller instead of larger—you will be on the up-grade instead of the down—and by and bye you will arrive at the north pole of perfect health.
